PITTSTBURGH, PA, 15221 USA

**Dear Bob & Cheryl,**

**EMERGENCY AT VISION COMPLEX ORPHANAGE**

I hope this letter will find you well, at vision complex orphanage as per now we have emergency which we need to tackle as soon as possible as you are aware of our bad situation which was caused by the flood having the rain stopped raining there is another big problem which has occurred in terms of Malaria due to many Mosquitoes surrounding our compound, and for now we have four (4) children who have been admitted in hospital and most of those four children are suffering from sickle cell Anaemia, doctor said the rate of Malaria has increased the rate of sickle cell anaemia to the children.

The situation of the four children is worst and the two children have been admitted into emergency room the situation is worst and our budgets is limited. We need to raise \$250 to save the lives of these children. The drugs are too expensive on our side.

I am hereby requesting donations/ support on behalf of the children to save their lives and this support we need it as soon as possible.

Kindly your involvement in saving the lives of these children is a ministry which Jesus started by himself which he puts it clear in the book of Mathew that “ when I was in the hospital you visited me”

Thank you very much for your involvement and being such wonderful supporters of vision Complex orphanage Children

Looking forward to hear from you as soon as you receive this letter

Be blessed

Yours Sincerely,

**Simon John Vision Complex Director**
